**PACKAGE PRICE STARTS AS LOW AS \$7,500/YEAR**

(\*Email us for specific pricing details)

**IMPORTANT NOTE: A DISCOUNT PRICE PACKAGE IS AVAILABLE FOR A 4-YEAR CONTRACT (Grades 9-12)**

When your student enters 9<sup>th</sup> grade, he or she is a potential college applicant. The high school years are a stepping-stone towards your student's future. During high school years, it's time for exploration, self discovery and growth! But most important, it is time for your student to prepare for college because these years are building the foundation for a competitive college/university application submission! Therefore, your student needs to establish good habits in the classroom, as well as set goals for personal and academic achievements. It is never too early to prepare for your student's success. Our consultant will:

- (1) Create a plan that enhances the academic, social and emotional wellness of your student upon his/her arrival in the U.S.
- (2) Build and strengthen structures that engage your student in developing his/her individual potential, enable your student to experience success in high school, and empower him/her to plan and prepare for post-secondary learning.

Our consultant will work step by step with your student to create the four-year high school action plan, broken down by grade level and by month. Every month, our consultant will check in with your student to make sure he/she is on track with college planning and preparation through high school, including freshman,

sophomore, junior and senior years. Your student, on the other hand, is encouraged to reach out to his/her assigned consultant if there are any questions or obstacles he/she experiences regarding the process.

See examples below for exercises your student will engage in to assure a smooth and successful college/university application process. Samples of our High School Action Plan include, but not limited to:

### **9<sup>th</sup> Grade (Freshman)**

- Think about your list of classes and extracurricular activities
- Meet and get to know your teachers, academic advisor or guidance counselor
- Get involved in extracurricular activities
- Select right mix of classes
